 - Bachelor of Tech (Hons) Petroleum Geoscience Major in Basin Reservoir
 - CGPA: 3.05
- 2008 - 2010** • **UniKL Malaysian Spanish Institute, Kulim**
 - Edexcel GCE A-Level
 - 1A 2C
- 2006 - 2007** • **MRSM Tun Ghafar Baba, Melaka**
 - Sijil Pelajaran Malaysia (SPM)
 - 9A

WORKING EXPERIENCE

- JUN 2019** • **Ocned Water Technology Sdn Bhd**
 - Geologist
 - Groundwater and geological data modelling.
 - Analyze and visualize geological data to client into 3D model.
 - Provide well design, logging, drawing, graph and report.
-
- RECENT**
- FEBRUARY 2018** • **Bumimetro Engineering Sdn Bhd**
 - Geologist
 - Soil investigation and micropile.
 - Prepare borelog and collect sample.
 - Meeting and liase with client.
-
- MAY 2019**
- MAY 2017** • **Geo Technology Resources Sdn Bhd**
 - Freelance Geologist
 - Resistivity, gravity and TEM geophysical survey.
 - Expose to fieldwork for data acquisition, processing and interpretation of geological modelling.
 - Prepare geological map, cross sectional diagram and report.
-
- FEBRUARY 2018**
- MARCH 2016** • **Kagawa Drilling Technology Sdn Bhd**
 - Geologist cum Site Engineer
 - Water treatment plant and groundwater tubewell.
 - Site coordination, management of subcontractors.
 - Provide well design, logging, drawing and report.
-
- MAY 2017**

PROJECT EXPERIENCE

Cash Horse Biomass Factory Sandakan, Sabah

- Groundwater and geological data acquisition such as resistivity data.
- Preprocessed data collected and analyze data to find potential groundwater reservoir.
- Visualize 3D model using Rockworks and present findings to client.

Johor Groundwater Project

- Groundwater and geological data acquisition such as TEM, resistivity, water level and water quality of monitoring well.
- Preprocessed data collected and analyze data to find potential groundwater reservoir.
- Produce 3D model of the data using Rockworks and present findings to client.

Transient Electromagnetic Method

- Geological studies at Jengka, Pahang (Jabatan Mineral & Geosains).

Tunnel Stability

- Sultan Ismail Petra Hydroelectric Station (Tenaga Nasional Berhad).

Data Scientist Pet Project

- Churn Model on credit card dataset from Kaggle.
- Classification Machine Learning on Titanic dataset from Kaggle.
- Multiple linear regression on life expectancy dataset from World Health Organization.
- Clustering on credit card dataset from Kaggle using Kmeans and DBSCAN.
- Association rules on groceries dataset from Kaggle using Apriori.
- Object detection apps using Tensorflow.js and React.js with COCO SSD trained model.

SCAN ME

EXTRACURRICULAR ACTIVITIES

- University representative for Geoscience Exhibiton and Competition 2015 (GENC 2015).
- Headman for Kursus Kenegaraan Mahasiswa ke Luar Negara (July 2010).
- Participation in Catur Bistari IPT Competition National Level (July 2008).
- Committee for International Seminar on Advanced Development in Spanish Machine Tools Technology (ADeSMAT 2008).
- Committee for Sekreteriat Rakan Muda UTP Entrepreneurship 2012.
- Committee for Moment to Share Rumah Seri Kenangan 2014.
- 7th Place in Banana Relay Run 2014.
